## Enjoy in School

We at MEC Institutions believe that every child has a right to joy at school. Every child should be keen to get to school the moment she/he wakes up. Only a happy child becomes an eager recipient of knowledge in the classroom.

Learning in the classroom too isn't forced on the child. We are very clear in our academic policies that we have to make the students settle down in their minds before they begin to interact in the classroom. With a settled mind, a child is able to behave more objectively and form opinions that matter. For us at MEC, this is our way of preparing citizens of tomorrow. This way, learning is unhurried and not thrust on the child.

We often ask ourselves, "How can we create joy at school for every child?" Our answer often leads us to personalized learning. When the system believes that every child is unique and that every learner has a unique way of becoming the best - that is when the system becomes mature and can deliver true joy in learning.

Be it sports, or hobby club or academic excellence, we also believe true joy comes when the child realizes that he/she is at the doorstep of achievement. We value every small achievement and motivate the child to scale the next peak in whatever the pursuit.

Our students are our most precious assets. We want them back rejuvenated and raring to go every morning. We are passionate about them and their continued success. Their joy just happens ...

## Principal's Desk

In each one of us there is a marvellous creative potential that need to be discovered and used for a happier and more productive life. As students your success in life will depend on your outlook to life. If you have the right attitude, no matter how difficult or tedious the task, however big the hurdles on our way may be, you shall surpass them. Milton was blind, Napoleon was afflicted with skin disease, Julius Caesar suffered epilepsy, Beethoven and Byron were deaf! Yet all of them succeeded in their lives. Thomas Alva Edison, the inventor of the electric bulb, failed nine hundred times in his experiments before he succeeded in his invention of the electric bulb.

Nothing shall hinder you from marching ahead. If you think you can, you definitely can. Discover yourself, unleash the potential within you and soar to the heights of your life and make every one proud of you.

Anuradha K, Principal

## Pre-Nursery

### Blue Bloom Day

Blue bloom day was conducted on 28th of November. Children were wearing blue colour dress. Stage was filled with blue colour toys and balloons. Board decorated with blue color charts. This time children done dab work on shark whale.

Pre-nursery children have learnt about shapes. The colour papers cut in different shapes like square, oval, rectangle, triangle, circle and diamond were given to the Children to make houses. They were guided to stick the shapes in respective place. Children did this activity very beautifully, and they were able to recognize the shapes and the color.

### Tiny Tots of LKG Learning about Shapes

Young minds enthusiastically participated in activity which aimed to teach them about shapes. Students identified different shapes.

## Famous Personalities

### Swami Vivekananda

Swami Vivekananda (12 January 1863 – 4 July 1902), born Narendranath Datta was an Indian Hindu monk, a chief disciple of the 19th-century Indian mystic Ramakrishna. He was a key figure in the introduction of the Indian philosophies of Vedanta and Yoga to the Western world and is credited with raising interfaith awareness, bringing Hinduism to the status of a major world religion during the late 19th century. He was a major force in the revival of Hinduism in India, and contributed to the concept of nationalism in colonial India. Vivekananda founded the Ramakrishna Math and the Ramakrishna Mission. He is perhaps best known for his speech which began, "Sisters and brothers of America ...," in which he introduced Hinduism at the Parliament of the World's Religions in Chicago in 1893.

## Fancy Dress Competition for Nursery Children

Fancy dress competition had been conducted on children's day the 14th November. All Pre-Nursery, LKG, UKG children were in different kinds of dress and they were stunning to look at. They spoke about themselves as they were dressed in differently.
